5. Fair Opportunity

NASA SEWP VI is a multiple-award Government-Wide Acquisition Contract. Ordering agencies are responsible for providing fair opportunity at the individual order level, as applicable under FAR 16.505(b), and for complying with their own acquisition procedures.

Customers should use the NASA SEWP Request for Quote process and other authorized SEWP ordering procedures as appropriate. NSCG will respond only with products, solutions, and services authorized under Contract 80TECH26D0427 and its awarded Category C scope.

6. Ordering Process

Step	Action	Description
1	Define Requirement	The ordering agency identifies its requirement, funding, technical, security, delivery, and acquisition needs.
2	Conduct Fair Opportunity	The ordering agency follows applicable FAR, agency, and NASA SEWP procedures, including the SEWP RFQ process when required.
3	Evaluate Quotes	The ordering agency evaluates submitted quotes using its stated requirements and evaluation approach.
4	Issue Delivery Order	The ordering agency's procurement office issues the Delivery Order using an authorized Federal ordering document and applicable SEWP procedures.
5	Order Administration	Order modifications, corrections, and related administrative actions are processed in accordance with NASA SEWP and agency procedures.

7. Installation, Warranty, and Post-Delivery Support

Installation, basic warranty, extended warranty, maintenance, technical support, software support, and other post-delivery services will be provided in accordance with the applicable NSCG quote, Delivery Order, manufacturer, software publisher, or service provider terms.

Customers should retain the applicable quote, Delivery Order, serial numbers, license information, and manufacturer or publisher warranty information. These details may be needed to resolve support or warranty requests.
